

The Fund

The Fund predominantly invests in UK large and mid-cap stocks using the Economic Advantage process, which can lead to sector exposures being significantly different from those of the market and many of its sector's peers. Anthony Cross and Julian Fosh use the investment process to identify companies with a durable competitive advantage that allows the companies to defy industry competition and sustain a higher than average level of profitability for longer than expected. For full investment objective and policy details please refer to the Prospectus.
