## SUSTAINABLE FUTURE CORPORATE BOND FUND

KEY INVESTOR  
INFORMATION  
DOCUMENT

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Liontrust Sustainable Future Corporate Bond Fund is a sub-fund of the Liontrust Sustainable Future ICVC and categorised as a UCITS scheme. This document is based upon Retail class units (2 Inc Class) (ISIN: GB0030029069). This Fund is managed by Liontrust Fund Partners LLP, a subsidiary of Liontrust Asset Management PLC.

### Objective

- To provide a higher long-term return than UK Government bonds. Although there is some potential for the capital value of the Fund to grow, over the long term (five years or more) most of the returns are likely to be in the form of income.

### Policy

- The Fund holds investment grade sterling corporate bonds, government bonds, and non-sterling investment grade corporate bonds. Relevant mainstream fixed income derivative instruments are held for the purpose of reducing risk.
- The Fund will predominately invest in investment grade bonds (over 80%), although is also permitted to invest up to 20% in sub-investment grade rated bonds that may offer a higher income but at greater risk to their capital value.
- The Fund will focus on issuers that demonstrate high levels of ESG and/or that will benefit from the shift towards a more sustainable economic system.
- Consistent with the Investment Association's Sterling Corporate Bond sector rules, 80% of the bonds in the Fund will be priced in sterling, or hedged back into sterling (hedging is a technique to negate the impact of any adverse exchange rate movements).
- The Fund is permitted to have a maximum aggregated unhedged currency exposure of 5%.
- The Fund may use derivatives to protect against market or currency movements, to reduce costs, or for investment purposes. The use of derivatives is subject to Liontrust's derivative policy.

### Recommendation

- This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### How to buy

- You may buy or sell shares on a daily basis (but not weekends or Bank Holidays). Orders must be received by 12:00 midday for execution at 12:00 midday valuation point on the same day. Further details can be found at [www.liontrust.co.uk/How to invest](http://www.liontrust.co.uk/How to invest).

### Investment process

- Macroeconomic analysis is used to determine our top-down view of the world and this helps shape all aspects of our portfolio construction and appetite for risk.
- After this, we aim to focus on high-quality issuers and believe this can enable us to reduce bond-specific risk. Our assessment of quality is a distinctive part of our process, whereby we combine traditional credit analysis with a detailed sustainability assessment based upon our proprietary model that focuses on ESG that may impact upon the issuer.
- The fund managers assess individual bonds for whether they believe the bonds offer attractive long-term returns and for absolute and relative valuations. Simply put, there is no point in investing in a bond merely because it is cheap relative to others in the sector if we believe the total returns are not attractive to the end investor.
- Rather than focusing on lower credit quality issuers, we seek the best value bonds issued by the high quality issuers that we have identified, looking at bonds issued across the capital structure, along the maturity curve, or issued into the primary credit markets (UK, US and Europe).
- We believe this approach is consistent with our principal aim of delivering attractive long-term returns to our clients.

## Risk and reward profile

- This Synthetic Risk and Reward Indicator (SRRI) is based on historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund's risk and reward category has been calculated using the methodology set by the European Commission. It is based upon the rate by which the Fund or a representative fund or index's value has moved up and down in the past.
- The Fund is categorised 3 because funds of this type have experienced average rises and falls in value in the past.
- Fluctuations in interest rates are likely to affect the value of the bonds and other fixed-interest securities held by the Fund. If long-term interest rates rise, the value of your shares is likely to fall.
- The Fund can invest in derivatives. Derivatives are used to protect against currencies, credit and interest rates move or for investment purposes. There is a risk that losses could be made on derivative positions or that the counterparties could fail to complete on transactions.
- The value of these securities will fall if the issuer is unable to repay their debt or has their credit rating reduced. Generally, the higher perceived credit risk of the issuer, the higher the rate of interest.

## Charges for this fund

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None

- This is the maximum that might be taken out of your money before it is invested.

Charges taken from the Fund over the year	
Ongoing charges	0.65%

Charges taken from the Fund under certain specific circumstances	
Performance fee	None

## Past performance

- Past performance is not a guide to future performance.
- Past performance has been calculated on the basis that any distributable income of the Fund has been reinvested.
- The past performance shown in the chart takes into account all charges except entry and exit charges.
- The Fund launched on 19 February 2001.
- The base currency of the Fund is pounds sterling.
- The 2 Inc share class was launched on 19 February 2001.

- The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser or fund platform if you are not using a financial adviser.
- The ongoing charges figure is based on expenses as at 31 December 2018. This figure may vary from year to year. It excludes:
  - portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units/shares in another collective investment undertaking.
- For more information about charges, please see the Charges and Expenses section of the Fund's prospectus, which is available electronically at [www.liontrust.co.uk/Literature/DownloadLiterature](http://www.liontrust.co.uk/Literature/DownloadLiterature).
