Liontrust GF Sustainable Future Pan-European Growth Fund is a sub-fund of Liontrust Global Funds plc. This document is based upon the A1 EUR Accumulating share class (ISIN: IE00BYWSV511), which is the representative class for all other classes.

Objective

- The aim of the Fund is to achieve long term capital growth by mainly investing in a portfolio of European equities.

Policy

- The Fund is biased towards companies that provide or produce more sustainable products and services as well as having a more progressive approach to the management of environmental, social and governance issues.
- The Fund will seek to achieve its objective through exposure mainly to equities of companies incorporated in any European Economic Area Member State and Switzerland, although it can invest globally. In normal conditions the Fund invests at least 75% of its Net Asset Value in European equities.
- In addition, the Fund may invest in debt securities for liquidity and cash management purposes. The Fund may also invest in exchange traded funds and other open-ended collective investment schemes.
- The Fund is not expected to have any exposure to derivatives (contracts whose value is linked to the expected future price movements of an underlying asset) in normal circumstances but may on occasion use them for investment, efficient portfolio management and for hedging purposes. The use of derivatives should not lead to a significant change in the risk profile of the Fund.
- The performance of the Fund will be benchmarked against the MSCI Europe Index.

Recommendation

- This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

- The lowest category (1) does not mean 'risk free'.

- The SRRRI may not fully take into account the following risks:
 - that a company may fail thus reducing its value within the Fund;
