What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level and poor market conditions could impact our capacity to pay you.

The risk indicator assumes you keep the product for a minimum of 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. **Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.** Please note that even the lowest risk class can lose you money and that extreme adverse market circumstances can mean you suffer severe losses in all cases. The summary risk indicator only reflects the market risk and credit risk of the product. Other risks materially relevant to the product which are not taken into account in the summary risk indicator are: leverage, derivatives, liquidity, Index, market cap, hedging, counterparty, currency, portfolio concentration and emerging markets risk, where applicable. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment. For full details of the Company's risks, please see the prospectus which may be obtained from Liontrust (address overleaf) or online at www.liontrust.eu.

What happens if Bridge Fund Management Limited is unable to pay out?

For the protection of investors the Fund's assets are held by an independent depository, so the Fund's ability to pay out would not be affected by the insolvency of Bridge Fund Management Limited. If the Fund is terminated or wound up, the assets will be liquidated, and you will receive an appropriate share of any proceeds but you may lose part or all of your investment. There is no compensation scheme protecting you from this scenario.

For further information on the depository and the sub-fund structure, please refer to the Liontrust Global Funds plc Prospectus which can be found at: <https://www.liontrust.co.uk>.
