

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Liontrust GF Pan-European Dynamic Fund is a sub-fund of Liontrust Global Funds plc. The Management Company is Bridge Fund Management Limited. This document is based upon the A1 EUR Accumulating share class (ISIN: IE000MSLRC4), which is the representative class for all share classes listed in this document.

Objective

- To achieve long-term capital growth by investing primarily in European companies

Policy

- The Fund is considered to be actively managed in reference to the benchmark(s) in the performance table by virtue of the fact that it uses the benchmark(s) for performance comparison purposes. The benchmark(s) are not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the benchmark.
- The Fund will invest in companies which are incorporated, domiciled, listed or conduct significant business in the EEA, Switzerland or the UK.
- The Fund will invest a minimum of 80% of its assets in equities or equity related derivatives but may also invest in collective investment schemes (up to 10% of Fund assets), corporate debt securities, other transferable securities, money market instruments, warrants, cash and deposits.
- The Fund is permitted to use derivatives for the purposes of efficient portfolio management and for investment purposes. Please refer to the Derivatives sections in the prospectus for further details.
- As result of the investment process employed, the proportion of the Fund that is invested in growth companies versus value opportunities will change dynamically over time depending on the investment opportunities available in the market.

Recommendation

- This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

How to buy

- You may buy or sell shares on a daily basis (but not weekends or Bank Holidays). Orders must be received by 11.59 am (Irish time) for execution at 12.00 midnight valuation point. Further details can be found at www.liontrust.co.uk.

Investment process

- The selection of the Fund's investments is determined by the following:
 - the philosophy of the investment process is based on the mistakes people make forecasting. The fund managers believe stock prices are frequently mis-priced as they tend to reflect the forecasts of future profitability made by company managers that are often unreliable and, at times, completely misleading;
 - the managers find, in contrast, that historical analysis of company cash flows is a more reliable guide to future profitability and stock price valuation in the medium term;
 - the fund managers seek to own companies that generate significantly more cash than they need to sustain their planned growth, yet are lowly valued by investors on that measure;
 - to identify companies' annual cash flow, balance sheet development and valuation efficiently across all equity markets the fund managers have developed a simple screen as a starting point for further qualitative analysis. The investment screen consists of two cash flow ratios that are combined equally to highlight the process characteristics that they seek.
- The two cash flow measures are:
 - 1. Cash flow relative to capital.
 - 2. Cash flow relative to market capitalisation.

Risk and reward profile

- This Synthetic Risk and Reward Indicator (SRRI) is based on historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund's risk and reward category has been calculated using the methodology set by the European Commission. It is based upon the rate by which the Fund or a representative fund or index's value has moved up and down in the past.
- The Fund invests in Developed European equities. The Fund may also invest in other eligible asset classes as detailed within the prospectus.
- The Fund is categorised 6 primarily for its exposure to European equities.
- The SRRI may not fully take into account the following risks:
 - that a company may fail thus reducing its value within the Fund;
 - overseas investments may carry a higher currency risk. They are valued by reference to their local currency which may move up or down when compared to the currency of the Fund.
- The Fund may, under certain circumstances, invest in derivatives, but it is not intended that their use will materially affect volatility. Derivatives are used to protect against currencies, credit and interest rate moves or for investment purposes. There is a risk that losses could be made on derivative positions or that the counterparties could fail to complete on transactions. The use of derivatives may create leverage or gearing resulting in potentially greater volatility or fluctuations in the net asset value of the Fund. A relatively small movement in the value of a derivative's underlying investment may have a larger impact, positive or negative, on the value of a fund than if the underlying investment was held instead. The use of derivative contracts may help us to control Fund volatility in both up and down markets by hedging against the general market.
- Outside of normal conditions, the Fund may hold higher levels of cash which may be deposited with several credit counterparties (e.g. international banks). A credit risk arises should one or more of these counterparties be unable to return the deposited cash.
- This Fund may have a concentrated portfolio, i.e. hold a limited number of investments (35 or fewer) or have significant sector or factor exposures. If one of these investments or sectors / factors fall in value this can have a greater impact on the Fund's value than if it held a larger number of investments across a more diversified portfolio.
- The Fund may encounter liquidity constraints from time to time. The spread between the price you buy and sell shares will reflect the less liquid nature of the underlying holdings.
- The fund's investment objective is to target capital growth for investors. Growth stocks tend to pay out lower levels of dividend resulting in lower income yields and may produce more volatile returns than the market as a whole.
- The Fund may have both Hedged and Unhedged share classes available. The Hedged share classes use forward foreign exchange contracts to protect returns in the base currency of the Fund.

GF PAN-EUROPEAN DYNAMIC FUND

- Counterparty Risk: any derivative contract, including FX hedging, may be at risk if the counterparty fails.
- ESG Risk: there may be limitations to the availability, completeness or accuracy of ESG information from third-party providers, or inconsistencies in the consideration of ESG factors across different third party data providers, given the evolving nature of ESG.
- Investors in share classes with a performance fee will pay a variable performance fee amount that is based on the performance of the underlying share class, which is likely to result in different total fees being charged each year and, during periods of outperformance, higher total fees than that of a share class with no performance fee. A performance fee may be payable in case the share class has outperformed its benchmark but had a negative performance.
- For full details of the Fund's risks, please see the prospectus which may be obtained from Liontrust (address overleaf) or online at www.liontrust.co.uk.

Charges for this fund

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	None

- This is the maximum that might be taken out of your money before it is invested.

Charges taken from the Fund over the year	
Ongoing charges	Classes A10 EUR Acc, A10 EUR Inc, B10 USD Acc, C10 GBP Inc: 0.49%
	Class A1 EUR Acc: 1.62%
	Class A5 EUR Acc: 0.87%
	Class A8 EUR Acc: 0.72%
	Class AP5 EUR Acc: 0.32%

Charges taken from the Fund under certain specific circumstances

Performance fee	For Performance Fee Share Classes (Class AP5 EUR Acc): The Performance Fee for these Classes for each Performance Period shall be equal to 20% of the amount, if any, by which the Net Asset Value of the Class before Performance Fee accrual exceeds the Indexed Net Asset Value. Index: MSCI Europe Index (See Prospectus for more information). The actual amount will vary depending on how well your investment performs. Investors in these share classes will pay a variable performance fee amount that is based on the performance of the underlying share class, which is likely to result in different total fees being charged each year and, during periods of outperformance, higher total fees than that of a share class with no performance fee.
-----------------	--

- The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser or fund platform if you are not using a financial adviser.

- The ongoing charges figure is based on expenses as at 14 May 2024. This figure may vary from year to year. It excludes:
 - performance fees;
 - portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units/shares in another collective investment undertaking.

- For more information about charges and what is included in each charge, please see the Fund's prospectus, which is available electronically at www.liontrust.co.uk or visit the costs and charges page on our website at www.liontrust.co.uk/cost-and-charges.

Past performance

- Past performance does not predict future returns. It has been calculated on the basis that any distributable income of the Fund has been reinvested. The past performance shown in the chart takes into account all charges except entry and exit charges.
- The Fund launch date is 27 February 2024.
- The A1 EUR Acc share class launch date is 27 February 2024.
- The base currency of the Fund is Euros.

Chart data not available due to less than 1 year track record
